

Programmierpaket Keyvi XS Touch

Keyvi XS Touch Programming Package

CX6594

Programmierpaket Keyvi XS Touch

Das Programmierpaket Keyvi XS Touch besteht aus folgenden Einzelkomponenten:

Keyvi Software MS Access CX6530, Servicesoftware Clex-Touch inkl. USB-Stick, Programmierstation CX6520, Servicekey CX6350 und Verbindungskabel.

Mit der Keyvi Verwaltungssoftware wird die Schließanlage zentral und komfortabel vom PC aus verwaltet. Die Software ClexTouch inkl. Funkstick dient zur Programmierung der Schließanlage und dem Informationsaustausch zwischen der PC-Verwaltungssoftware und den Schließeinheiten.

Das Programmierpaket Keyvi XS Touch ist geeignet für den Offline-Einsatz aller Clex prime Produkte mit den Transpondervarianten:

- 125kHz: EM4200, EM4450, HITAG 1/HITAG S
- 13,56 MHz: MIFARE Classic®, MIFARE® DESFire®, LEGIC® prime, LEGIC® advant
- Aktivtransponder (868 MHz)

Detaillierte Informationen zu den einzelnen Komponenten entnehmen Sie bitte den entsprechenden Erläuterungen zu den Produkten.

Keyvi XS Touch Programming Package

The Keyvi XS Touch programming package consists of the following components:

Keyvi software MS Access CX6530, service software ClexTouch including USB stick, programming station CX6520, service key CX6350 and connecting cables.

Using the Keyvi management software, the locking system can be managed centrally and conveniently from the PC. The ClexTouch software including the radio stick is used for programming the locking system and for exchanging information between the PC management software and the locking units.

The Keyvi XS Touch programming package is suitable for the offline use of all Clex prime products with the transponder versions:

- 125KHz: EM4200, EM4450, HITAG 1/HITAG S
- 13.56MHz: MIFARE Classic®, MIFARE® DESFire®, LEGIC® prime, LEGIC® advant
- Active transponder (868 MHz)

For detailed information on the individual components please refer to the corresponding explanations on the products.
