

# Clex mobile points

## WHY DO I NEED CLEX MOBILE POINTS?

Clex mobile points can be used to pay the charges for creating and using mobile keys and smartphones.

In the Clex Key Hub, the cloud service for managing mobile authorisations, a points account is maintained for each project. Points are allotted for each successful invitation and for usage over time.

Managers are automatically informed by e-mail if the number of points is low. In addition, the current points can be viewed at any time in the cloud service.

## HOW MANY POINTS DO I NEED?

**400 points** are required to activate a new smartphone.

**Please note:** These points can also be accumulated whenever you change the mobile phone or every time you install a new app!

To activate a smartphone and use it for a period of one year, you need **765 points**. This corresponds to a list price of €7.65.

In addition, one point per day will be deducted from your user account for each active smartphone for the subsequent years.

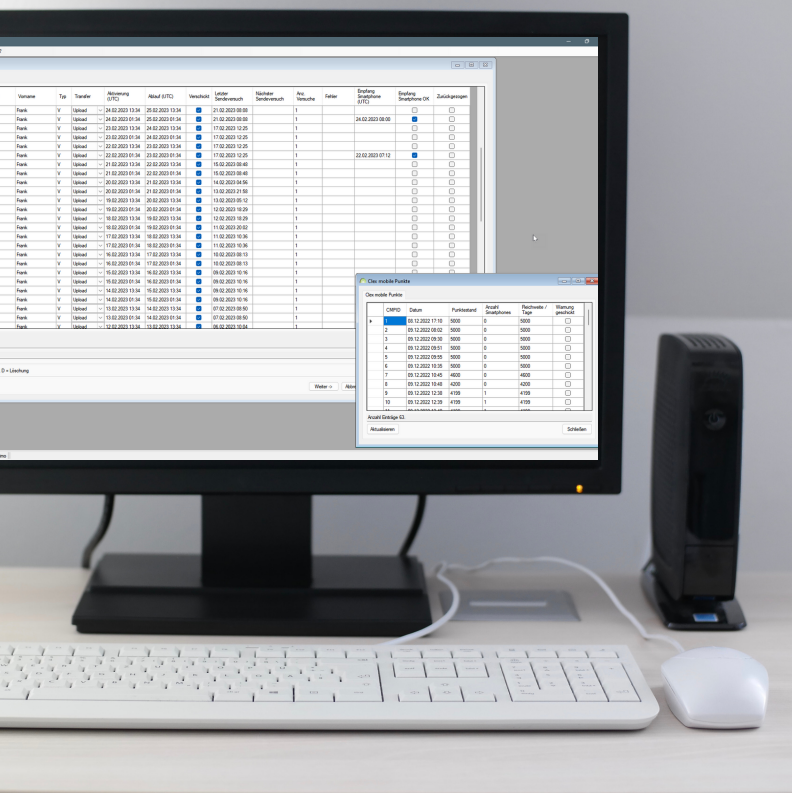

## HOW DO I EARN NEWS POINTS?

The Clex mobile points can be purchased in **1,000 voucher packs** from your dealer.

One point is currently equal to one cent. Consequently, **€10.00** corresponds to **1,000 points**.

You will receive the voucher code with your delivery note or in urgent cases in advance by e-mail. The code is entered in the **Keyvi 3 management software**.

Unused points cannot be refunded.
